# POSTMAN
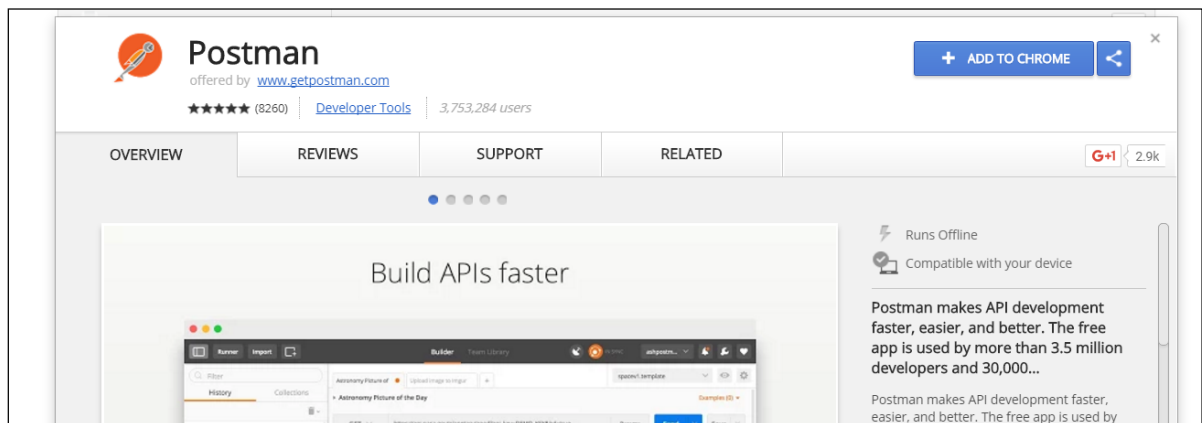

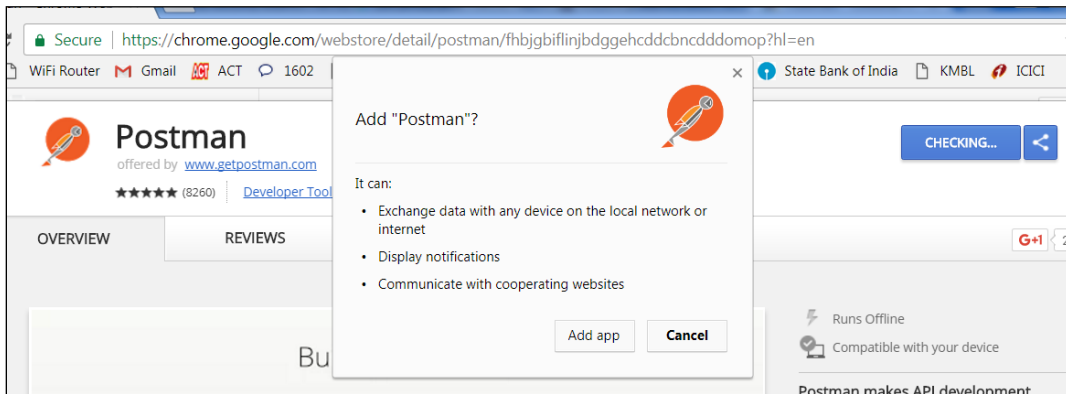

❖ **Open Google Chrome browser and type postman in search option shown as below**

❖ **Then click on first link "Postman-Chrome web store"**

❖ **Then it will navigate to chrome web store. Here Click on button "+ADD TO CHROME" shown at top left of screen.**
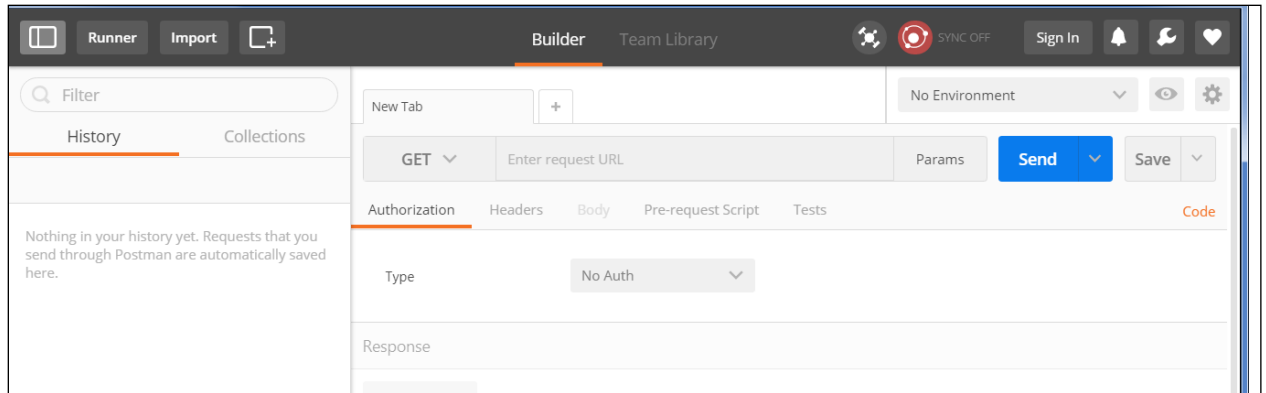

❖ **On click "+ADD TO CHROME" it will show confirmation to user as below, click on "Add App" option.**

❖ **After some time (around 2 minutes) postman extension will be added. Take a new tab and type**

❖ **"chrome://apps" and press enter to see postman app and also to launch the app.**

❖ **Click on "ICON" to launch the postman tool**

- ❖ Here select Method Type like <mark>GET/POST etc.. and Enter URL beside to that</mark>.
- ❖ At last click on <mark>send button</mark> to make request and view response.
- ❖ We can also make parallel request by taking new tab here.
